If yes: number of learners with special needs: all.

Specify the 'special needs' : long-term unemployed, disadvantaged groups

It's our first experience with an assistant from abroad:

Yes  No  *(tick the right box)*

Reasons why we'd like to host the Grundtvig-assistant:

The aim of De Groene Kans is to provide learning and working experience for disadvantaged groups. We have been a partner in two Grundtvig Learning partnerships and would like to get our target group (long-term unemployed people) involved in the European dimension of the Grundtvig program.

Possible tasks for the Grundtvig assistant in our organisation:

The GRU-assistant will work closely with one of our instructor in forestry work. He/she will be involved in teaching the target group some technical skills and will also be able to coach people into gaining the right work attitudes. Therefore it is vital that the GRU-assistant enjoys working outdoors

Characteristics of the teachers / adult learners the Grundtvig assistant can be an assistant for:

The "teachers", or instructors, all have a background in forestry management (Bach.) or nature conservation. They work with and supervise a group of 5 people (long-term unemployed) and teach them the necessary skills and attitudes. The instructors work closely with our social workers.
